DEDICATION

For your ever-continuous guidance and support, we, the Class of 1987, dedicate this edition of the *Archon* to you, Doris A. Mathieson. You have demonstrated throughout the past four years your sincere concern and interest in our class. From organizing events such as the Touch of Love, which was a tremendous experience for many of us, to your never-ending support and presence at virtually all activities in which we participated, you have played a significant role in our lives. Simply being our grade administrator would have been sufficient, but you went far above and beyond your duties.

Through this dedication we extend our humble gratitude for making our high school years so memorable. Thank you for being our advisor and, most of all, thank you for being our friend.

APPRECIATION

We would like to thank you, Mr. Joseph Antonioli, for your constant dedication to the Class of 1987. You have not only taught us to be individuals, but also shown us how to come together as a class. We will always remember and appreciate all your time and effort.

Throughout the past four years you have shown the Class of 1987 never-ending patience and support. You have always been willing to aid us and to make our days a little brighter. For this and much more, we thank you, Mrs. Doris Feinstein.

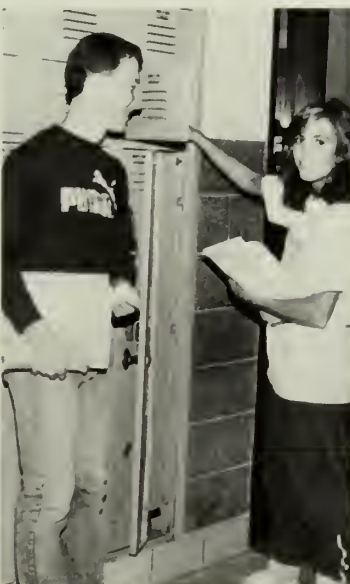

When I leave I don't know what I'm hoping to find. When I leave I don't know what I'm leaving behind.

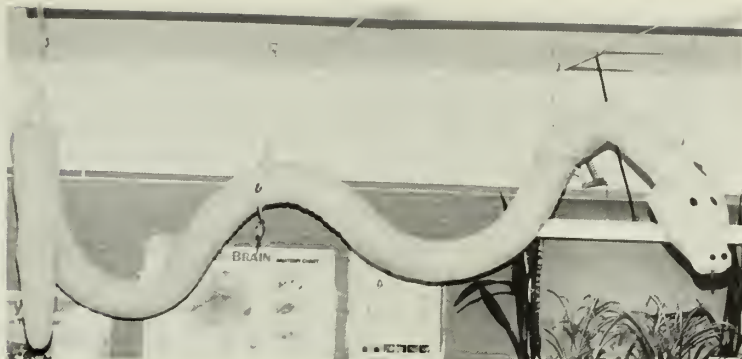

Gonna sail away, sunlight's another day. Freedom on my mind, carry me away for the last time.

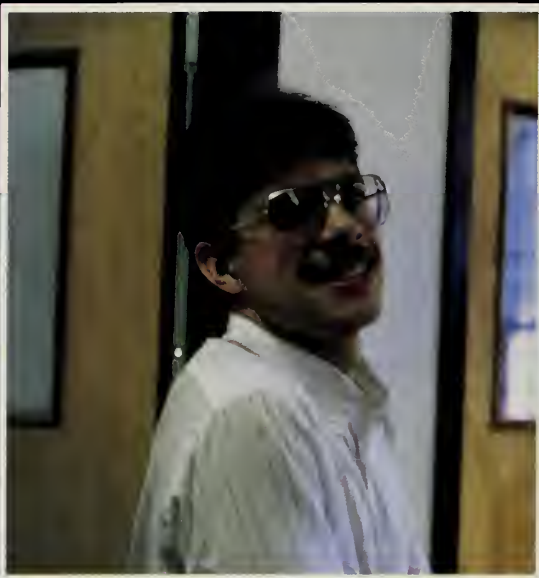

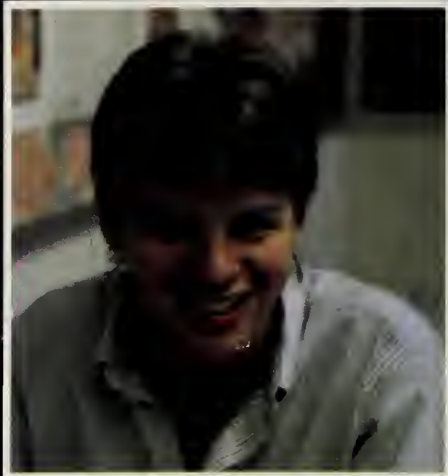

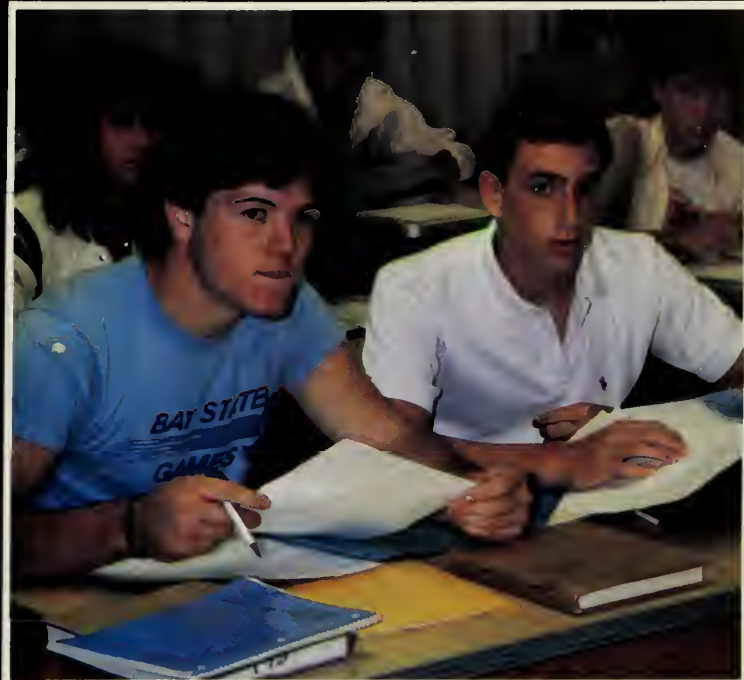

So you're scared and you're thinking, maybe we're not so young anymore.

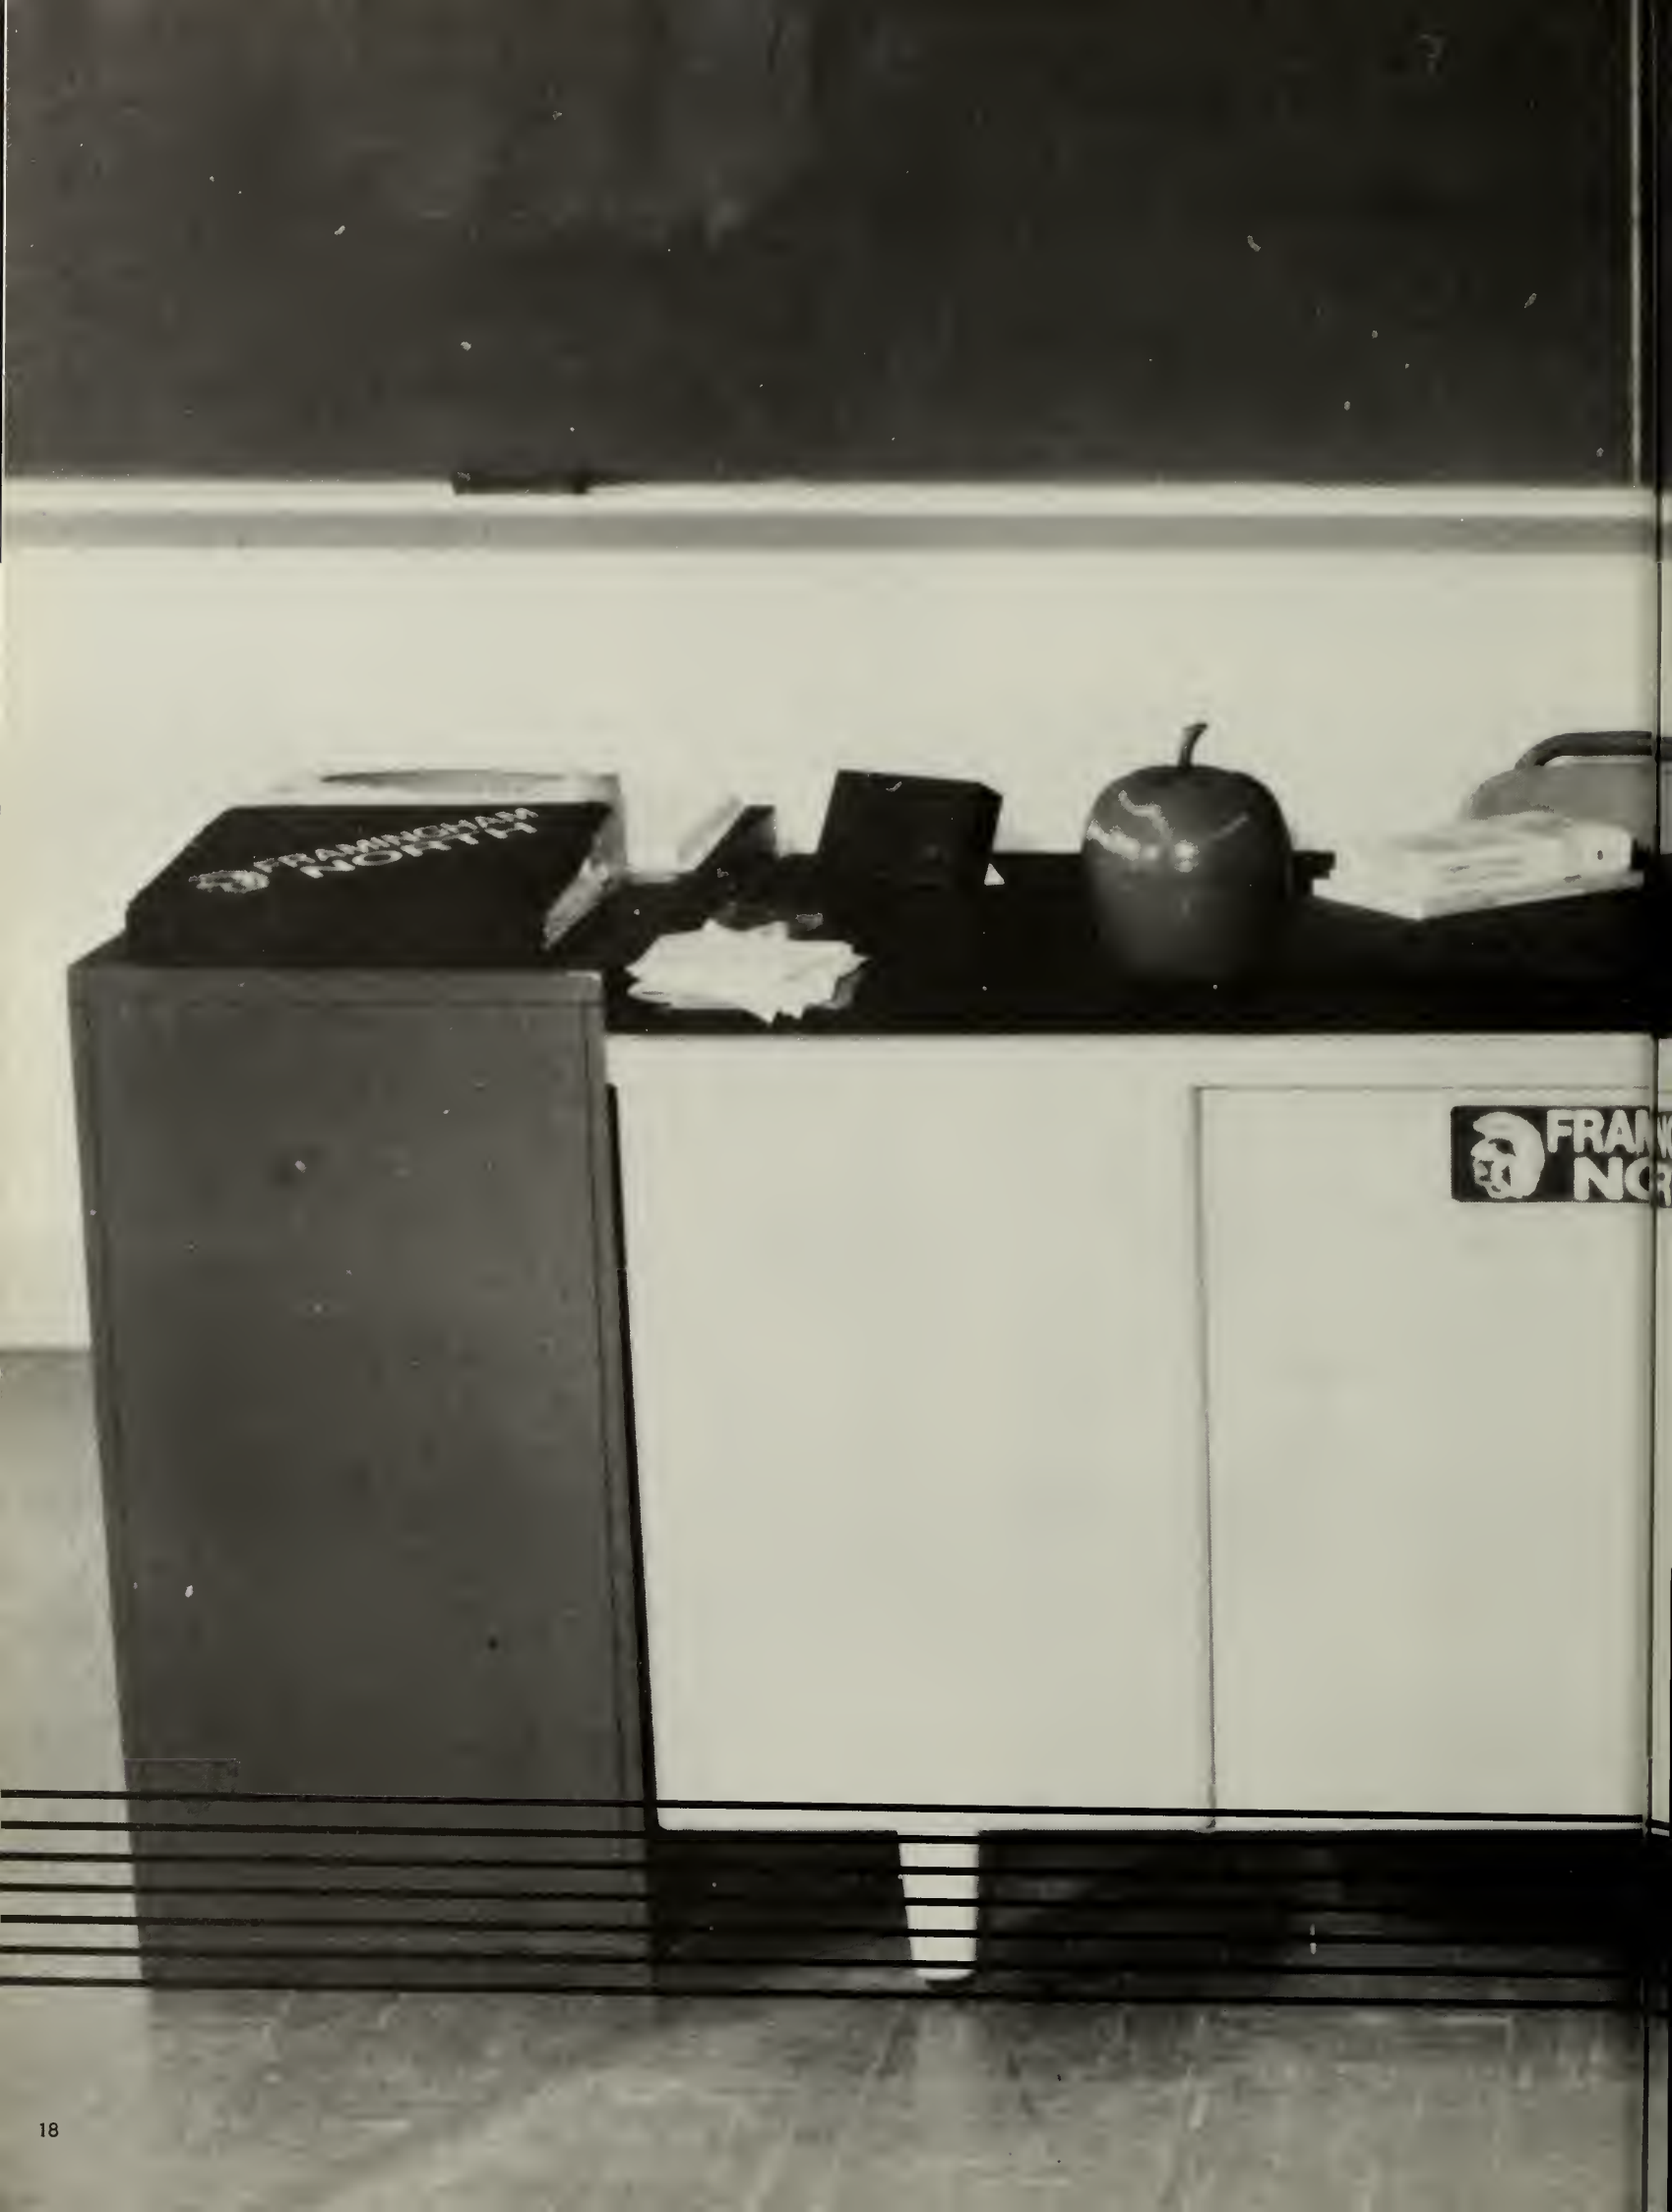

Cast your dreams before they slip away.

We used to laugh about the times we cried; now we cry about the times we laughed.

PRINCIPAL

Mr. Edward F. Gallagher

Dear Graduates,

We are impressed by the accomplishments of the North High Class of '87. Sometimes it's difficult to sketch the personality of a particular class; however, your class can be depicted as a fine group of young people with a strong commitment to our school and to our community. Through four years you have contributed much to many projects which benefit others. A specific highlight of your career was your creation of the "Touch of Love" program, which added a very bright time to the lives of our senior citizens. This program is a concrete example of your community commitment.

Academically, you've done extremely well as evidenced by the myriad of colleges which you will attend. Other members of your class will excel in the workplace and make their presence known in our town.

While individual achievements are realizations of your personal goals, be reminded that we've travelled through North together! Without your excellent teachers, guidance counselors, grade administrator, grade secretary, parents, and your friends, individual goals would not be achieved. Keep in mind that one doesn't succeed in isolation, but rather success is the culmination of the efforts of many in behalf of the individual.

A lifelong theme may very well be that many working together can accomplish great things for many but an individual will accomplish little when acting alone. We, at North, hope that your efforts continue to be in behalf of a better way of life for yourselves, your community and your nation. Make the commitment to continue to be the very best that you can be; the results of your efforts will be reward enough and the benefits of your efforts will be far reaching and effective.

The Class of 1987 has been a positive influence in our school; exert that influence always. Best wishes!

Sincerely,

Edward F. Gallagher

The making of a yearbook, if it's to be successful, requires a great effort. We were fortunate enough to have many people putting other commitments on hold in order to give a tremendous amount of their time and effort to *The Archon*, when we know that senior year is such an important time both socially and academically. A simple thank you doesn't seem anywhere near enough. So, here's a more complicated thank you: *Merci beaucoup, gracias, danke schön, gratis agère, and ankyou thay!* We thank Mrs. Mathieson for her endless enthusiasm and encouragement; Mrs. Feinstein for her continuous help; the faculty and advisors of activities for their patience and cooperation; Mr. Dunne and Mr. Antonioli for their fund raising skills and assistance; Mr. Gallagher for his willing advice; all of the students to whom *The Archon* represents a valuable memento of our years here at Framingham North High for their cooperation and willingness to pose; and of course Miss Judge and Mrs. Shevrin who deserve the utmost gratitude, for we truly could not have done it without them.

WE MAY NEVER PASS THIS WAY (AGAIN)

Life — so they say
Is but a game and they let it slip away
Love — like the autumn sun
Should be dying but it's only just begun
Like the twilight in the road up ahead
They don't see just where we're going
And all the secrets in the universe
Whisper in our ears and all the years will come and go
And take us up, always up

We may never pass this way again
We may never pass this way again
We may never pass this way again

Dreaming is easy
Let them dream and let them drift away
Love
It's only just begun
Days
Age
Sea
The years will come and go

again
again
again

Laughin' is easy
While
again
You
Like I'm more than a friend
You're the journey's end
again

We may never pass this way again
We may never pass this way again
We may never pass this way again
